1/26/2024

Dear Candidate,

The team at Arnot Ogden Medical Center thanks you for interviewing with our programs. During the process, you were notified that our Institutional Accreditation was on Probationary Status beginning in January of 2023.

I am pleased to write and inform you that the ACGME has granted our Institution full 10-year Continued Accreditation Status this month, a reflection of both the tireless work of our GME staff, faculty, and trainees, and of the ACGME's acknowledgement that Arnot Ogden Medical Center meets or exceeds their requirements for an effective site to train future physicians.

While our Institution and each of our training programs are accredited, that does not mean the work stops here. We have expanded our systems and processes to continuously improve the work environment and education of our trainees.

As this interview season comes to a close, I hope you consider Arnot Ogden Medical Center greatly as an opportunity where you will hone your skills as a physician in a collegial and respectful environment.

I invite you to reach out with any questions.

Warmly,

Michael Witt, MD, MPH, FACEP, FAAP, CPXP
Designated Institutional Official
Core Faculty, Emergency Medicine Residency & Transitional Year Program
